Education

SIES College Of Commerce And Economics, Sion
Bachelor of Technology in Information Technology   Jun 2022 – Apr 2025
Maharashtra, India
CGPA – 9.78

Experience

Web Development Intern – NullClass Edtech Private Limited Company
Jun 2025 – Aug 2025 (Remote)
- Collaborated with a team to design and develop YourTube, a video-sharing platform using React.js, Node.js, MongoDB, and Express.js.
- Contributed to backend architecture, including video storage, streaming logic, session control, and user authentication using JWT.
- Implemented Razorpay integration for dynamic plan upgrades with secure transaction flow and real-time user entitlement management.
- Enhanced performance with Redux-based state management and optimized route-level rendering to reduce load times.
- Designed middleware for download rate-limiting based on user type (free vs premium) and added logic to enforce daily download caps.
- Wrote reusable components for video cards, player controls, and alert systems using React functional components and hooks.
- Conducted cross-browser testing and deployed on Netlify (frontend) and Render (backend) for seamless CI/CD delivery.

Projects

IncredibleIndia Tours   Jun 2024 - Jan 2025

Technologies: HTML, CSS, Bootstrap, jQuery, JavaScript, PHP, MySQL
- Developed a dynamic travel and tourism website where users can browse packages, book flights, and hotels.
- Implemented user login, package filtering, booking confirmation, and payment simulation system.
- Integrated HERE API for routing and Google Maps for location display.
- Built admin panel to manage packages, bookings, and users.
- GitHub Repository - https://github.com/Sam200563/Incredible-India-Tours

RoadTripMap – Full Stack Trip Planning Website   Feb 2025 - Jul 2025

Technologies: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Leaflet, jsPDF
- Designed and developed a full-stack web application for users to create, edit, and visualize travel itineraries with location pins and day-wise plans.
- Integrated OpenCage Geocoding API for location search and Leaflet.js for interactive maps.
- Enabled features like photo uploads per trip, dark mode toggle, calendar view, map-based trip display, and itinerary PDF download.
- Implemented user authentication, profile editing, trip favorites, and dynamic UI with animation and responsive design.
- GitHub Repository – https://github.com/Sam200563/RoadTripMap

YourTube – Full Stack Video Sharing Platform   Jun 2025 – Aug 2025

Internship Project– NullClass
- Delivered a scalable video-sharing platform, YourTube, using React.js, Node.js, MongoDB, and Express.js.
- Implemented features such as user authentication, video upload/playback, daily download limits, and premium plan upgrades via Razorpay.
- Deployed the frontend on Netlify and backend on Render, gaining hands-on experience with live full-stack deployment.
- GitHub Repository - https://github.com/Sam200563/Your-Tube

Technical Skills

Languages: HTML, CSS, JavaScript, PHP, SQL ,jQuery
Frameworks & Libraries: Bootstrap, React JS, Node.js, Express.js ,TailwindCSS
Databases: MySQL, MongoDB
Tools: Git, GitHub, VS Code

Certifications

- Full Stack Developer – One Roadmap
- React.js Complete Guide – Udemy
- AWS Solutions Architecture – Virtual Internship
- Deloitte Virtual Job Simulations (Cyber, Analytics, Technology)
